

OUTLINE

Networking Concepts and Components	7	Network Services	18
Models of Network Computing	9	Basic Connectivity Services	18
Centralized Computing	9	Redirector Service	19
Distributed Computing	11	Server Service	19
Collaborative Computing	12	File Services	20
Network Models: Comparing Client/Server and Peer-to-Peer Networking Configurations	13	File Transfer Services	23
Client/Server Based Networking	13	Data Migration	24
Peer-to-Peer Networking	15	File Archiving	25
Local and Wide Area Networks	16	File-Update Synchronization	25
Local Area Networks (LANs)	16	Printing Services	26
Wide Area Networks (WANs)	16	Application Services	26
Intranets and Internets	17	Database Services	28
		Messaging/Communication Services	30
		Email	31
		Voice Mail	31
		Fax Services	31
		Groupware	31
		Directory Services	32
		Security Services	33
		Chapter Summary	36
